- Employment Support
- IT & Technology Training
- E-Learning & Curriculum Design
- Senior & Executive Search

Candidate Reviews

The team at FIND are absolute professionals and know just how to fit you as an individual to the right role. They take time to get to know you and what it is you are looking for, not just in a job role, but from a work life balance, culture and ethical fit. They know the companies they recruit for and provided me with lots of support an insight to help prepare for interview. Post interview support has been fantastic too, always helpful and always responsive.

Big thank you to Aishah in particular, who has supported my journey”

Aishah is a breath of fresh air in the world of recruitment and having dealt with her in the past I can truly say she genuinely has helped me to find more than one amazing job and been unbelievably understanding and supportive throughout the process. Never have I been made to feel forced or pressured to do anything other than what is best for me. I would recommend Find and especially Aishah to anyone, thank you.
